

Make It a Real Clean-Up and Paint-Up Week

Council and Board of Trade Urges Citizens to Co-operate in cleaning up and beautifying gardens, buildings and lots.

Calgary Bd. of Trade
Will Visit CrowLuncheon for Business Men Next
Wednesday at Grand Union Hotel
to Make Arrangements.

J. H. Hart, Secretary of the Calgary Board of Trade, has written to the local board stating that Calgary members are planning a good will trip and would like to take in the Crow's Nest Pass, "as we have not yet visited our friends in that section."

The local board has voted to get a considerable number of our members to take the trip, our committee thinks it would be necessary to go by rail to Lethbridge, and then motor back through Coleman and Blairmore to Pincher Creek, making a stop of two hours in Coleman, and reaching Pincher in time to spend a couple of hours before entraining for Calgary.

In order to arrange this the representative of the Board of Trade and all business men will be held. Instead of the usual form of meeting a luncheon will be held at the Grand Union hotel on Wednesday from 12 to 2 p.m. for one hour, as stores close at 1 o'clock on this day, and this will enable every man to attend without any loss of time from business.

Other details of interest are to be discussed concerning the activities of the local board, and every member or business man in town and others who wish to attend the luncheon should notify the Secretary, H. J. Halliwell, as early as possible. All other arrangements may be made with the hotel management for the luncheon.

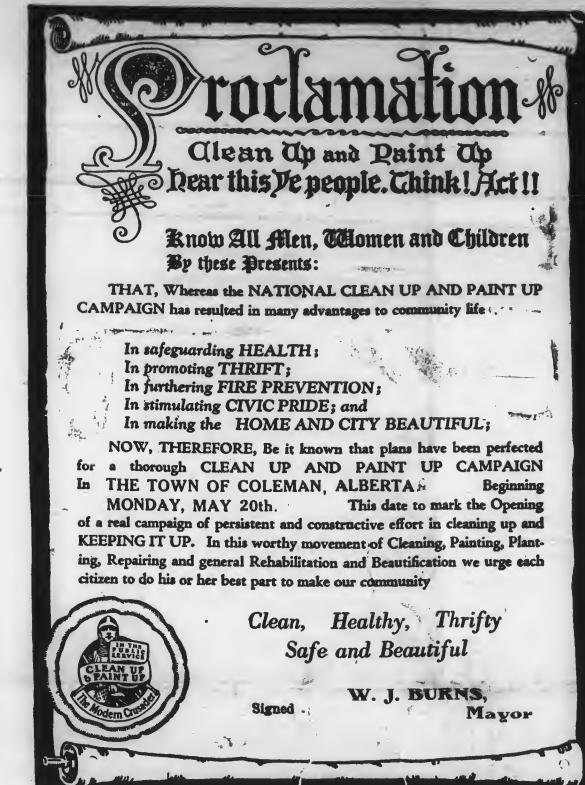

Mother's Day Commem-
orated in K. of P. HallPythian Sisters Observe Mothers' Day
by Social and Supper in
Castle Hall.

A general and social meeting of Pythian Sisters was held on Wednesday, May 8th, to show respect to local mothers and also to express sympathy to those whose mothers had passed on to the great beyond. Each mother was asked to bring somebody's mother or friend, there was naturally a very good company. After the meeting was over supper was served, Mrs. R. Ferguson leading off with a toast in honor of mothers present, in respect to those who have passed on.

Mrs. Dickson replied on behalf of Sisters and friends present. After the refreshments the following program was carried out in good fellowship:

Mrs. Remond, violin solo; Mr. Duffin with violin; Mrs. Ramsay, song; Mrs. Holmes, recitations; Mrs. Phillips, song; Mrs. Nelson, song; Mr. Duffin, violin solo; Mrs. Griffith and Mrs. Glendinning gave readings on the merits of Pythianism in general.

Mrs. A. McLeod and Mrs. A. Corbett spoke a few words showing their appreciation on the ideals of the meeting after with the social came to a close by singing "Auld Lang Syne," everyone having spent a very enjoyable evening.

Have You Got Your
Forest Permit?Camping Parties and All Who Visit
Woods Should See Forest
Ranger Boulton

Thousands of travellers in the woods, more than ever before, because the travel permits issued are being extended—will be accosted this year with the question, "Have you got your permit?" The fire ranger who asks you this question may or may not be uniform but if you are in doubt as to his authority he can show you his badge. Why are you asked to obtain a per-

mit to travel the woods that belong, you have heard it repeated, said to the people of Canada? Simply to assist your guardians of the forests, who represent after all only a nucleus of the protection force.

If you wish efficient forest protection at a minimum cost then you must do part of the protection work yourself.

It must be a co-operative affair, or otherwise you will be asked to pay fire rangers—must fail. In a safe year perhaps the lack of your individual co-operation might pass—there might not be disastrous results from some accidents, but in a year when the fire ranger is not available, you are in danger.

Hence the permit and the reason for some valuable hints for your observance printed on the permit form;

The dance held under the auspices of the Slovaks League on Monday night in the Opera house was curtailed in attendance owing to the heavy rainstorm, but those who attended spent an enjoyable evening.

Blairmore Bd. of Trade
Suggests RemediesSome Troubles Experienced in
Coleman and Board Passes
Resolutions.

L. L. Morgan was re-elected president of Blairmore Board of Trade at the meeting at which the new council was elected.

Reading the report, Blairmore appears to have the same nuisance to contend with that Coleman has, as the following will show:

In view of the many complaints heard about stray horses running at night and destroying lawns, gardens and other property, the board adopted a resolution to petition the town council to strictly enforce the town rules by law.

The board adopted another resolution to the effect that as the alleys were being obstructed by garbage and other junk, and the owners removing this being under the individual house, the city fathers be interviewed at the next regular meeting and request them to distribute garbage receptacles throughout the town and emptied at least once every month and carried to the nuisance ground.

Here and There

Arthur W. Cutten, Chicago wheat king, is erecting a hotel in his native town. The hotel, which will be operated by the Canadian Pacific Railway. A golf course and pleasure park will be also established, the whole undertaking involving an expenditure of about \$2,000,000.

The sumptuous new Sulphur lounge car put into service by the C. P. R. as rear equipment aboard the Trans-Canada Limited is being nicknamed the "mustard plant car." It was affectionately suggested by railway officials that the company should provide passengers with mustard plasters as it was recently claimed in England that mustard plasters were the ultra-violet ray. This contention was disproved, however, and the trouble taken by the railway is again to end in room rates with the car costing \$100 a week, which admits the ultra-violet and most beneficial rays of the sun, was justifiable.

Officials of the C. P. R. in the east can now speak to their conference in the west—as in connection with the recent improvement and extension of the radio telegraph carrier system telephone facilities were also thrown open.

The community of globe trotters who made a circuit of the globe during the winter aboard the Canadian Pacific liner Empress of Australia, have a series of remarkable items to tell. Social notes of the New York newspapers when their vessel terminated her voyage there, an engagement of a man to a woman, the birth of five children to a Japanese passenger were announced, constituting in the opinion of Captain Latta, commander of the liner, the most remarkable unrecorded in seafaring annals. The five Japanese babies were appropriately named the "Empress of Australia," "Empress of Scotland," "Empress of France," "Empress of Canada," and "Empress of Russia," after the giant battles of the Canadian fleet. The babies were canaries.

D. C. Coleman, vice-president of western lines of the Canadian Pacific, has been appointed director of the Metropolitan Life Insurance Company of New York. The only other Canadian director is Hon. L. A. Taschereau, Premier of the Province of Quebec.

A tunnel built at a cost of \$250,000 makes it possible for trains to run from North Vancouver to connect with the Canadian Pacific Transcontinental system. The first train making use of the new connection will run from the Canadian narrow gauge and the harbour rail system, carried the Governor-General and many distinguished westerners.

Funerals and weddings can hold no terrors for Captain Frank McFadie of the Canadian Pacific ship "Asia," who has been present with no less than three top hats.

As captain in charge of the vessel entering the ports of Sainte Marie, Fort McPherson and Fort William during this season, this year, opening navigation at each point, he was given the traditional welcoming address and presented with a silver cigarette holder and a silver ashtray.

The cabin tonnes remove when in a neat row in his cabin and it is estimated that it will take three hundred years to wear them all out.

Support Is Appreciated

Capt. Thiesstein and Lieut. Meekins desire through The Journal to express their thanks to all who contributed to the Self-Denial Fund of the Salvation Army.

Cat Thieves Busy
Here and FERNIEEnter Rooms Whilst Inmates Are
Sleeping and Take Money from
Pants Pockets.

Between midnight and 6 a.m. on Thursday morning last several rooms on the third flat of the Grand Union hotel, and one room on the first flat, were entered by a thief who holds the palm for a cool nerve. Rooms in which roomers were sleeping were entered, and money varying in sums from one to fifty-five dollars taken from their pants pockets, yet not one heard the cat thief in their rooms.

Mrs. Bell, and daughter Mae, who occupy separate rooms on the third floor, state they heard or saw their door rooms opened slightly and closed again, but gave little heed to it at the time, thinking that one of the regular inmates of the house may have made a mistake, but in view of the robberies, it is surmised that the burglar had a "hunch" not to enter their rooms.

The robberies were first discovered when guests and roomers came down to breakfast. One traveller who had occupied a room on the first floor, was not slow to pay his bill and found not a cent in his pocket. His money had all been taken. Others began to report losses, until by noon when various reports were in the hands of the police, it was found that over \$150 had been taken, when over \$100 had been taken.

A day or so later a report came from Fernie that similar robberies had taken place there. One theory is that the robbers came to town on May 15th morning and registered and left again before the passenger train left at 8:30. May have been the guilty parties, whilst another theory advanced is that the thief or thieves entered by the doors at the rear of the hotel which serve as fire escapes.

BASEBALLERS PREPARING

Angelo Gentile, local baseball manager, is preparing his team for the coming season. He is not certain if he will enter them in the Amateur Union of Alberta, as he is not yet sure what kind of baseball they will play. He might be using a semi-pro or just baseball, but whatever kind it is Angelo says they will meet all comers in the Crows Nest Pass and beyond. Angelo is manager, transporting lines, and general general manager of his team, and when the team is short at the end of the season he digs down to square up the balance sheet. That's what it is to be a dead game specialist.

Since the Board of Trade—there is plenty of work for every business man and representative citizen to do something useful. Live towns have live boards of trade.

THE CARPET BAGGER vs.
THE LOCAL PRINTER

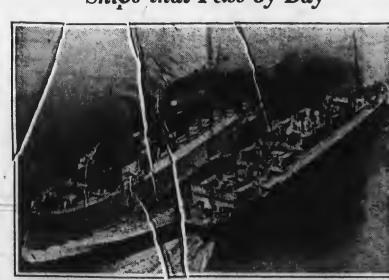

Many business men, when considering the cost of any particular job of printing, are apt to say at the very least, "they may be able to save at the time on any order." They fail to ask themselves what the carpet-bagger leaves with them throughout the year in the way of business as compared with the printer and members of his staff. He also seems to forget that if he and his fellow business men would get more of their printing requirements done in their home town the publisher might be induced to employ additional help which would still further swell the amount of money to be spent in the home town.

Wanted By May 20th

For period of two months

Rooms With or Without
Board for Three MenEither singly or together, in
Central Coleman, if possible,
and preferably in the upper
town district.

International Coal & Coke Co., Ltd.

The 1929 St. Lawrence river shipping season is now on in full swing. The Anchor-Donaldson liner *All Roads* led off by bringing more settlers to Canada than any other ship to date this year. Her companion ship, the *Cunarder Ascania* arrived simultaneously with *All Roads* as many immigrants.

If you had patience enough to camp atop the famous Quebec bridge, this is what you might some day see: the *Athena* inbound, having just landed hopeful immigrants at Quebec, a Cunard liner outbound from Montreal with prosperous Canadians who will visit their former homes in Great Britain.

The Power Of Small Things

The following item was recently printed in a large number of newspapers:

"Forty-five years ago there was a strike in an Ohio coal mine. A group of enraged miners took a car of coal, set it afire, and pushed it down into the mine. That fire is still burning under ground, spreading many miles, destroying valuable coal deposits and rendering hundreds of acres of surface ground sterile. Today it threatens to destroy a school building and some homes in a village. Burning beneath it is undermining the ground and may cause them to collapse. The fire that a moment's anger started 45 years ago certainly turned out to be a bigger thing than the men who started it ever imagined."

There is a moral to this incident which might well be heeded, for after all, it is but an illustration, a spectacular one, it is true, of almost every day happening. The moral is that a small act may have far-reaching consequences, either for good or for evil.

A cow kicked over a lamp in a barn in Chicago, and the Great Chicago Fire resulted.

A frenzied student assassinated an Austrian Grand Duke and his wife, and the Great War was the immediate outcome with its sacrifice of ten millions of lives and hundreds of billions of dollars in property and other losses.

An employee is dismissed in anger, and perhaps unjustly, and a nationwide strike follows bringing suffering and ruin in its wake.

A careless workman, or a dishonest contractor, neglects to put a sufficient quantity of cement in the foundations of a building or in the piers for a bridge, or the retaining wall of a dam, and disaster follows taking heavy toll in human lives.

A rotten timber is used in building a ship, and the vessel sinks; a faulty rail is laid in a track, and a train is wrecked; a careless camper neglects to put his fire, and a terrible conflagration wipes out a forest.

And how often has a hasty word, an insulting remark, led to family and business estrangements with dire results to all concerned.

How often, too, has the peace and friendliness of an entire community been destroyed because of the whispered scandal, the unguarded reflection upon the honor and integrity of another, the prejudiced utterance casting aspersions upon those of different races or religious beliefs.

All little things in comparison to their terrible effects and disastrous results.

Fortunately, for the human family, the reverse is also true.

We still recall our childhood's interest in the story of the little Dutch boy who by sticking his finger in the small hole in a dam saved his country from inundation. We delight in the personal histories of great men and women who were started on their careers by the kindly, encouraging word of some friend.

We know, too, by personal observation that the mighty oak is born or the humble acorn; that it was in a single kernel of wheat the hundreds of millions of bushels of Marquis wheat annually harvested in Western Canada had their origin.

If we would but remember and give heed to the fact that, just as a pebble thrown into the water causes ever widening circles of little waves to sweep its surface until finally they lose themselves upon the shore, so does every word and act of ours create little circles of influence radiating out into our homes, our offices, our communities and the world at large, and, for good or ill, affecting the lives and future of others and of our country, then, perchance, we would be more careful, more considerate, a little less hasty and impatient of others, and more inclined to extend that degree of sympathy and tolerance to others which we naturally expect will be displayed towards us.

Local Option In India

Voters In Town Of Taras Went "Dry" To A Man

An astonishing thing has happened in the Punjab. Citizens of the town of Taras have lately secured from the Provincial Government the privilege of holding a local option election as to whether liquor shops in the town should continue to operate. Over fifteen hundred voters went to the polls and voted "dry" to a man. This is probably the most decisive local option vote yet recorded in any country. The nearest approach to it possibly occurred in Kentucky some twenty years ago when about the same number of votes were cast, and all were "dry" except those of the two liquor

"A GREAT TONIC," SAYS MRS. RUSSELL

After Taking Lydia E. Pinkham's Vegetable Compound

Fenwick, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound during the Change of Life for nervous disorders, loss of appetite and to lessen the moon bottles of it. It was recommended to me by a friend and now I am glad to tell it to all women for such troubles as I have come at this time"—Mrs. W. V. Russell, R. R. No. 4, Fenwick, Ontario.

dealers and their relatives—seventeen in all.

Worms are encouraged by morbid conditions of the "stomach and bowels, and so forth," Miller's Worm Pill will allay the worms almost immediately and will sweep the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young constituency.

Encouraging Business Outlook

Volume Of Business At A High Limit For First Three Months Of Year

Business activity generally in Canada during the first three months of this year was greater than any similar period since the war, according to an official review of the current business situation in the Dominion.

The dollar volume of business, as indicated by bank debits at the clearing house centres, was at a higher level during the first quarter of 1929 than at any similar preceding period since the record was first compiled in 1924. The total in the first three months of the present year was 15 per cent. greater than in 1928, and 63 per cent. in excess of the aggregate in the same period of 1927, the total in the first three months of 1928 being \$11,505,000,000.

I noticed your wife sitting by the window sewing this morning. I thought you told me she was ill?" "So she was; but today she's on the mend!"

Asked what he understood by "foreign entanglements," a schoolboy replied, "Spaghetti!"

Scientists predict a toeless race. The borer is apparently not the only pest threatening the corn crop.

The World's Air Centre

British Ports Will Be Headquarters In Next Decade Is Prediction

Only a decade or two hence and airplanes and airships may be leading British ports for all quarters of the Empire and of the world, as regularly as steamers do now. From coach to railway, from sailing ship to the steam and oil-driven Leviathans of today, from the horse to the car, from the balloon to the airplane the great job of annihilating time and space goes on. And at each new step, in each successive phase, British inventiveness, British engineering, and British pluck are to the fore. In the air as on the waters, Nature has marked us down as the centre of the world.—London Daily Express.

WOMEN WHO SUFFER

Anaemia Is The Most Common Disease Of Girls And Women

Medical science shows that most of the ills that afflict growing girls and women are due to the fact that they are deficient in quantity. The main culprit is the cause of low spirits, languor, the poor appetite, breathlessness, and the aching back that make life a burden for many women. There is no need for any woman to suffer in this way, for all the miseries of anaemia can be quickly banished by taking Dr. Williams' Pink Pills. It is an established fact that these pills create an abundance of new rich blood—their wonderful reputation is based on that.

Thousands of formerly weak and ailing women have cheerfully testified to the fact that they owe their restoration to good health to Dr. Williams' Pink Pills. One woman, Mrs. E. L. who says: "I am among those who can strongly recommend Dr. Williams' Pink Pills. Before I began taking them I was in an extremely nervous condition and could not sleep, neither could I eat, and was constantly growing weaker. I got medicine from a doctor, but it did not seem to meet my condition, and then on the recommendation of a friend I began to take Dr. Williams' Pink Pills. By the time I had taken a couple of boxes there was no doubt they were helping me, and I continued to take them until I had taken six or seven boxes when I was again in the best of health. I always keep Dr. Williams' Pink Pills in the house, and if any member of the family feels run-down the pills soon put him in good condition."

The best time to begin taking Dr. Williams' Pink Pills is the moment you feel that the bug bites or creeps. The sooner you do so the sooner you will regain your old-time energy. You can get these pills through any drugstore or druggist, or by mail, postpaid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Agricultural Wealth Of Canada

Figure Shows The Importance Of Our Basic Industry

The gross agricultural revenue of Canada for the year 1928 is estimated at approximately \$8,027,301,000, an increase of \$15,353,000 over the 1927 estimate.

The total agricultural revenue of Canada last year is placed at \$1,730,304,000 with the following allotments for the nine provinces: Ontario, \$500,821,000; Saskatchewan, \$302,603,000; Quebec, \$277,050,000; Alberta, \$264,028,000; Manitoba, \$145,867,000; British Columbia, \$50,715,000; Nova Scotia, \$40,162,000; New Brunswick, \$34,307,000; and Prince Edward Island, \$21,750,000.

REPARATIONS PLAN UNFAIR TO THE DOMINIONS

Paris.—It was confirmed that the plan for revision of reparations payments by Germany, proposed by Owen D. Young, of the United States, at the reparations conference, would leave Great Britain nothing for the Dominions or for arrears of interest on debt. It would award that country just enough from Germany to pay the U.S. from now on.

The British experts here refute the contention that this is all that is demanded in the Balfour note. They point out the note excludes reparations due the Dominions from its terms.

The absence of direct representation for the Dominions at the conference is considered by the British delegation as all the greater reason for not yielding on the question of the Dominions share of German reparations. The delegation is practically certain to reject that phase of the Young proposals which would reduce the German payments to the Dominions to zero.

The proposals brought forward by the U.S. delegate were by way of a compromise after the conference had become deadlocked on the amount Germany should pay. The German refusal to meet the Allied demands and Mr. Young advanced a plan involving some reduction.

Eclipse Of Sun In South Seas

Thousands In Manila See Phenomenon on Through Smoked Glasses

Manila.—The eclipse of the sun cast a shadowy streak across Polynesia and the South Seas. Manila witnessed the phenomenon with great interest, as seen here, 50 per cent. of the face of the sun being obscured as the moon's bulk came between the solar rays and the earth. The obscuration cast a spell over the city but did not prevent the sun from casting shadows.

If the natives feared the phenomenon there was no sign of it here. Thousands of all ages viewed the eclipse through smoked glasses or other improvised instruments.

Word was eagerly awaited from Iloilo, south of here, where five scientific expeditions located their instruments to view the phenomenon of a total eclipse.

Disappointed In Arms Parley

Stresemann Discusses Failure To Reach Definite Decision

Berlin.—Gustave Stresemann, foreign minister of Germany, discussed disarmament and the Paris reparations negotiations in a speech at the annual banquet of the Foreign Press Association. Although he specifically disclaimed any desire to give a pessimistic touch to those situations, yet his remarks, especially regarding disarmament, showed disappointment and even alarm at the failure of the Geneva conference to reach concrete and definite decisions.

Oppose Bill For Back Pay

Ottawa, Ont.—Five Manitoba Liberal members have served notice on the government, they will oppose Hon. Peter Venot's bill to pay \$150,000 to the postal workers who went on strike in 1919 and who were taken back into the service. The dissenting Liberals are: Messrs. Glen, Lovie, Steedsman, Brown and Milne. The bill will have to be radically re drafted or what is quite probable, dropped entirely.

Ice Breaks Up On Yukon

Dawson.—The ice in the Yukon river in front of Dawson hotel moved out on May 7, heralding the advent of spring and summer. First prize in the guessing contest on the movement of the ice was divided between Thos. Leech, of Dawson, and Kennedy and Grace Stewart, of Anchorage, Alaska. The approximate amount of the prize was \$7,200.

Fails In Altitude Test

Montreal.—After reaching a height of 17,000 feet, Captain M. E. Jones, chief pilot of the Curtis-Reid Airport at Cartierville, was forced to give up his attempt to break the world's altitude record here. Jones made his attempt without the aid of oxygen and in an open cockpit plane.

Adopt Grade Crossing Bill

Ottawa.—Third reading was given in the Senate of the bill amending the Railway Act which provides for the expenditure of \$200,000 a year to eliminate grade crossings.

W. N. U. 1785

Riots Cause Controversy

Part Played By Police In Berlin Riot Is Criticized

Berlin, Germany.—Bitter controversies continue in the Berlin press and among the public as to the part played by the police in suppressing the Communist riots which broke out on May day. Postmortem examinations of twenty-four victims of the riot are said to have revealed that 17 had been killed by police bullets.

The official inquiry has been unable to establish that a single shot had been fired by a civilian against the police. Only one policeman of the 40-odd injured in it received a bullet wound and that was when he had accidentally inflicted upon himself.

One hundred and fifty shopkeepers of the Wedding district where rioting was said to have been very severe, declared that the streets were quite safe from Communist excesses and that a simple police patrol would have sufficed.

Meanwhile, 45 persons of 117 arrested had been sentenced to short terms of imprisonment for breaking the peace. The rest were released for want of evidence.

Should Not Be Disfranchised

Committee Thinks Persons Receiving Charitable Aid Entitled To Vote

Ottawa.—The parliamentary committee on privileges and elections has decided to recommend a change in the Elections Act so that persons receiving charitable assistance should be allowed to vote. As it stands prevents persons seeking assistance either by direct gifts or by living in a charitable institution, from voting.

The committee felt that with many and varied forms of assistance now being extended to persons in unfortunate circumstances it would be too far reaching to disfranchise them all and it would be almost impossible to differentiate.

The committee refused to agree to the suggestion that the clause preventing judges from voting be eliminated. The general opinion seemed to be that the judges did not want the law changed, they did not wish to be placed in the position of either supporting or opposing the government by casting their ballots.

L. J. Ludner, Conservative, Vancouver, South, argued it was absurd to disfranchise the judges. He considered it was an insult to the judges.

Cannot Attend Function

Alberta Women Unable To Accept Invitation From England

Edmonton.—None of the five Alberta women who were expected to visit England on June 17, when the Canadian delegation is to hear their appeal from the decision of the Supreme Court of Canada, which decision declared that they are not "persons" within the meaning of their national charter, the British North America Act, will be able to attend a great public function to be held in their home on June 16.

The invitation, which also carried with it an offer of assistance, has been tendered by a group of women in Great Britain, including members of the imperial parliament and other notables who have achieved distinction in politics, business, the professions, literature, education and social endeavor.

The Alberta appellants are Mrs. Henrietta Edwards, Mrs. Nellie McClung, Mrs. Louise McKinney, Hon. Irene Parry, and Magistrate Emily Murphy.

Brown On Practice

Toronto.—A warning to patent medicine companies against the practice of having sample pills and patent medicines thrown at the doors of householders for advertising purposes was issued today by Hon. W. H. Price, attorney-general. He ordered an inquest into the death of Audrey Glimmer, Kitchener girl, who died after eating pills that had been left at her door.

Opium Seizure At Coast

Vancouver.—A seizure of opium valued at more than \$7,000 was made on the R.M.S. Empress of France by officers of the customs preventive service, according to a report from that office. The seizure consisted of 83 tins and was hidden near the ship's funnels. No arrests were made.

Many Russians Drown

Smolensk, Russia.—Many persons were drowned when a wooden dam collapsed while it was crowded with spectators watching the ice floes during a spectacular rise of the river Dnieper. The river was many feet above normal, causing a serious flood.

Marooned Trains Released

Were Held Up During Ten-Day Blizzard In Northern Manitoba

Winnipeg.—From northern snows by a set up in low temperatures, two Canadian National Railway work trains were able to proceed on the way to Churchill, the prairie outlet on Hudson Bay. Both trains had been held up during a ten-day blizzard that had swirled down from the northland almost to The Pas.

After days of almost unavailing effort the snow plows succeeded in battling through the trains, on one of which were 160 men en route to Churchill for the department of railways and canals.

AMENDMENTS TO ELECTION ACT TO BE FORTHCOMING

Ottawa.—Candidates should be allowed to hire automobiles or other conveyances to carry voters to the polls on election day, it was decided by the special committee of the House of Commons reviewing the Dominion Elections Act. Sec. 11, which makes the practice an offence, is to be deleted. There are at present one-third too many polling subdivisions throughout the country, Colgate O. M. Biggar, former chief election officer stated. Approximately \$150,000 would be saved in each election by a revision of subdivision boundaries. Sec. 28 is to be amended to meet the difficulty.

Sec. 27 is to be amended so that an election officer guilty of a wilful act or omission shall be subject to a fine of from \$200 to \$500, and one half the fine is to go to the informer. A new section, "3-a," was added, providing that election notices or documents may be fastened to posts or wooden structures despite any municipal bylaw.

Sec. 4 was amended so that although hand bills or otherwise must bear the name of the printer, the candidate cannot be unseated if they do not. It was explained that the section is to prevent anonymous material being circulated.

Farmers and labor organizations may hereafter contribute to election expenses as a result of removing Sec. 9. The action provided that no association could furnish money unless it was specifically formed for election purposes. The chairman C. G. Price, Liberal, Quebec South, said that the section operated unfairly in the case of farmers and labor organizations.

Alaskan Survey Planned

Washington, D.C.—Inventory of the vast resources in timber and hydro-electric power that lie hidden beyond inaccessible mountain ranges in southeastern Alaska is to be taken this summer by navy aviators, using cameras with multiple lenses cameras will unfold the secrets of hidden lakes and inaccessible forests like a magic carpet beneath them.

New York Doctor Loses Radius

New York, N.Y.—Someday in New York, \$25,000 worth of radius is smoldering slowly through its tiny containers and threatening burns to anyone who touches it. It was lost by Dr. J. E. Eller, a skin specialist, who believes he left it in a taxi-cab.

Hassell predicted that within five years aeroplanes with "pay loads" will fly regularly between Copenhagen and Chicago. The route from the Middle West northward through Canada to Iceland and Greenland, thence to Europe, is the safest possible to Europe, he said, with its longest stretch over water being only six hundred miles.

Spokesman For Germany

To Circle the Globe

Plans Being Drawn Up For Graf Zeppelin To Make Flight Around the World

Washington, D.C.—The post office department was advised by U.S. diplomatic officers in Germany that plans are being made for the Graf Zeppelin airship to make a round-the-world trip, starting and ending at Lakehurst, N.J.

A trip from Germany to the United States and back is due to start soon, after which the post office department was advised the airship would return to this country to start circling the globe.

Must Watch His Colors

Party Workers In England Must Be Wide Awake

London.—The party worker who skips lightly from constituency to constituency during the general election campaign will have to keep a sharp eye for his colors. For a curious practice in British elections, the party has national colors accepted in every constituency. Sometimes the colors for one constituency are completely reversed in another. Occasionally it is a bit awkward for the party enthusiast who wanders far afield.

SAY POOL WILL NOT SELL GRAIN AT A SACRIFICE

Winnipeg.—If western wheat pools are blamed for the grain blockade at Port Coborne and Montreal, they are not concerned at the situation in which they are found. But they refuse to be made the "goats" according to Pool officials' statements in answer to Montreal allegations.

"We could mitigate the situation if we wanted to sell our grain at a sacrifice," commented a senior official, "but we refuse to make our farmers pay for a situation that is not our fault. Don't misunderstand. We are selling a certain amount—we are not refusing sales."

"The world surplus is not our making. There is an enormous amount of grain in the world, and the buying is not exactly brisk. If we wanted to take sacrifice prices we could move the stuff, but we don't intend to penalize our farmers by doing it."

"Why should we relieve the congestion for everybody's benefit but our own? Montreal officials can blame whom they like—we refuse to be the 'goats'."

Saskatoon.—A report from Montreal which blames organizations of Western farmers for grain congestion in the port of Montreal and which suggests that Western agrarians should accept a lower price is taken exception to here by George H. Williams, president of the Farmers of Canada, Saskatchewan section.

"The report published by the Montreal Star," he says, "purporting to come from an official of the Montreal grain commission, has gone to the public without a level head where it will pay no heed of production."

"The report indicates that the official of the harbor commission makes it very clear that the profits of the harbor commission are being interfered with, and we note the solution is to lower the price of wheat." Mr. Williams' statement continues. "The article finds fault with western farmers organizations because they, through the agency of the western pools, are endeavoring to hold the price of wheat up to a level where it will pay no heed of production."

"The report indicates that the official of the harbor commission makes it very clear that the profits of the harbor commission are being interfered with, and we note the solution is to lower the price of wheat."

"This has always been the solution of commercial organizations handling the farmers' produce, simply to pass on to the farmer any misfortune that may come up and safeguard the profits of the handling company. To cover up this demand they suggest that a drop of even a cent would relieve the situation."

"If this is so, how is it that a drop of nine cents in the open market does not relieve the situation? Can it possibly be that all the real wheat is in the hands of the pools, who are holding it for a sensible price, and that all the howling is about a lot of paper wheat in the hands of speculators, which does not exist in real bushels at all?"

"Somebody ought to explain it!" "Possibly 100 per cent. control of all the wheat by the pools might not be such a bad idea after all. Apparently the direct result would be to cut out a lot of market camouflage and let us know just where we really are."

MARITIME GRAIN RATES CASE IS POSTPONED

Ottawa.—Application of the maritime board of trade for a reduction in grain rates from Fort William to St. John, N.B., and Halifax will be heard at three sittings of the board of railway commissioners. Chairman H. A. McKeown and his colleagues on the board, it was announced, will hold local sittings at St. John and Halifax some time in July. A final hearing on the application will take place here.

A rate of 19.34 cents per hundred pounds on grain shipments from Fort William to the two ports on the Atlantic seaboard is sought by the application, as against the prevailing rate of approximately 34 cents. The rate now effective from Fort William to the port of Quebec under the general freight rate revision is now 34 cents per hundred pounds.

Hearing of the application was scheduled before the board here, owing to the illness of Alister Fraser, K.C., counsel for the Canadian National Railways, presentation of the case has been postponed until July.

Heads Victorian Nursing Order

Hon. Geo. P. Graham Re-Elected President Of Board Of Governors

Ottawa.—Right Hon. George P. Graham, was re-elected president of the Board of Governors of the Victorian Order of Nurses for Canada at the concluding session of the thirty-first annual meeting of the Order here. Hon. W. K. Malkin, of Vancouver, is one of the four vice-presidents.

Tribute was paid to Mrs. James MacCauley, of Vancouver, and Mrs. William Dennis, Halifax, as "the two spiritual workers with whom the idea of the V.O.N. first originated." Letters of gratulation and endorsement were sent from the conference to Mrs. MacCauley and Mrs. Dennis.

Miss Elizabeth Smellie, chief superintendent of the Order, gave a comprehensive resume of the work during the past year. Victorian Order Nurses attended 63,281 patients and made 515,156 visits, an increase of 34,666 over the preceding year. Of these 45,974 were free nursing visits.

Wheat Nipped By Frost

Grain In Brandon District Will Grow Again Say Farmers

Brandon, Man.—Wheat shoots on hundreds of acres in the Brandon district have been nipped off by continental night frost. Grain that in some cases reached a height of one and one-half inches has been leveled. Farmers state that the grain will grow again without re-seeding and some contend that the new growth will be a benefit, strengthening the roots.

Investigating Malady Among Horses

Saskatoon, Sask.—Dr. Seymour Halden, a professor of animal pathology at the University of Saskatchewan, and a member of the Dominion research council, has gone to British Columbia at the request of the Dominion government to diagnose an unknown malady which is wrecking havoc among horses of the coast province. He is accompanied by Dr. H. M. Tory, president of the research council.

Phonograph Records Of Speeches

London.—Phonograph records of speeches of 15 leading politicians, including leaders of the three main parties, are being distributed for use in rural areas in the present campaign. The records will probably prove of great value, apart from their immediate use, as interesting examples of personal styles of oratory.

Must Complete Line

Ottawa.—In a judgment handed down the Board of Railway Commissioners ordered the Canadian National Railway Company to complete the construction of a branch line in connection with the operations of the Gébel Coal Company, Ltd., in the Rocky Mountain forest reserve, in Alberta.

Oratory Finals

Toronto, Ont.—The Dominion oratory finals will be staged here on May 22, it was announced. Several provincial champions will strive for the right to be Canada's representative at the international oratory championship in Washington on October 26.

A BROWN STUDY

Brown is a more restful and tasteful color, the car designers and interior decorators of the Canadian Pacific Railway have decided, so this will be the predominant note in the sumptuous new sleepers just built by the company's Angus shops at Montreal especially for service on the Trans-Canada Limited. The carpets and curtains will be a rich brown, and the wood finish a lustrous wood. Permanent headboards, too, will give added privacy, dividing each section from its neighbour cubicle fashion. The feature of the rear end equipment on the Trans-Canada will be a Solarium-lounge car, with green-tiled bath-rooms, via-glazed sun rooms and smoking rooms for women as for men.

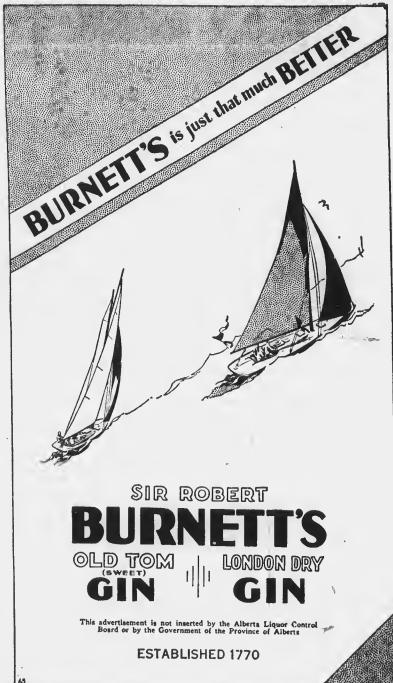

FOR the first time in motor-car history, you can have *all* these big-car characteristics without paying big-car prices:—
Big, six-cylinder engine, with GMR high-compression cylinder-head.
Accurately balanced line-of-drive and Harmonic Balancer.
New fuel pump and redesigned carburetor.
Internal-expanding four-wheel brakes, dirt- and weather-proof.
Lovejoy Hydraulic Shock Absorbers.
Spring covers.
Foot-controlled tilt-ray headlights.
Large, roomy Body by Fisher, with genuine Ternstedt fittings and rich upholsteries.

Announce Reduction in Amusement Tax

The existing tax on low priced tickets of admission to such places of amusement and entertainment as moving picture houses, chautauquas, etc., has been cancelled by a recent order in-council of the Al-

berta Government. Admission prices not exceeding 25¢ will hereafter be exempt from tax, the only exception being places for public dancing. The order is to be effective on June 1st. No change will be made in the case of tickets for which more than 25 cents is to be charged.

NOTES AND COMMENTS

Investigation into many automobile accidents proves that they are the result of carelessness or drunkenness. Jail sentences and cancellation of driving privileges for varying terms according to the nature of the offence when one is found guilty of gross carelessness, or drunkenness while driving a car, or breaches of the traffic regulations may serve to warn people, but still there will remain the irresponsibles who will not heed warnings. Far too many innocent lives are sacrificed to the carelessness or inefficiency of people driving cars, and quite often the innocent who suffer, either through damaged cars or personal injuries, have no comeback against those actually responsible. The laws and regulations governing those who drive cars, and requirements as to their ability to act quickly in an emergency need tightening up very materially. Fatalities in Southern Alberta, with their poignant tragic circumstances, are becoming far too frequent. The public should co-operate with the police in every way possible to bring offenders to time.

Last week a noisy bunch of men arrived at a hospital in Southern Alberta bringing in one of their party, with no realization of the condition he was in. Three minutes after his admittance he expired, his back or his neck being broken. A loving wife was called and was there confronted with the tragedy. It is occurrences of this nature that bring home to people the criminal nature of incapable people driving cars. A week or so earlier a little three-year-old tot's life was snuffed out by a girl driver who apparently lost control of her car and pinned the little child between the car and a building; the road apparently was not wide enough for the driver, and she drove right onto the sidewalk. Last year a young fellow riding a bicycle south of Calgary was injured to such an extent by a speeding motorist that his leg had to be amputated, and his university career was wrecked, while his illness cost his parents thousands of dollars. And the party responsible had nothing when it came to settling up for the damages. These are just a few instances of the tragedies being enacted every day in the operation of cars.

A case was brought to the attention of The Journal recently whereby some boys having a cabin in the woods nearby, thoughtlessly left a fire burning and caused some damage to trees. Fortunately the timber was not dry, so that it soon burned itself out. The seriousness of boys leaving fires in the woods should be fully impressed on them by their parents. It might be the cause of millions of dollars worth of damage, for a fire travels fiercely when fanned by a heavy wind, and life as well as property is endangered. Teachers in the schools should also impress on children the necessity of taking every precaution when in the woods.

Clean-Up Day was somewhat of a wash-out. The weather was cold, snow was in the air, and people were simply not in the humor to work outdoors. However, the work of cleaning up is proceeding, though there are still many back-yards resembling dump grounds that are very unsightly. These should be cleaned up without delay.

Blairmore is agitating for a regular garbage service, whereby garbage would be removed at regular intervals and charged against the property. This is the only safe and sanitary way of dealing with the matter. Dump grounds scattered around the town are a disgrace and the local health authorities should take action and put into effect rules and regulations which a progressive community demands.

The proposed visit of Calgary Board of Trade to the Crows Nest Pass will re-awaken interest in our local board, which has been dormant for the past year. Every business man and others who are interested should make it a point to attend the get-together luncheon of Coleman Board next Wednesday, when plans will be discussed for the reception of the visitors and activities of the board for the year. There is useful work to be done, in which every man who prides himself on being a citizen can take part.

Lethbridge is stirred up by a controversy on cadet training in the schools. Disciplinary training, no matter if it be in the Boy Scouts or school cadets, is conceded to have a beneficial effect on boys. Most boys enjoy it, and appreciate its value. General Baden-Powell, of Mafeking fame, started the Scout movement, and the fact that it has spread internationally demonstrates its usefulness. The disciplinary training of the Scouts is very similar to cadet training, and experience with boys proves that there are many advantages in the training received in either of these organizations. The school trustees in Lethbridge have invited a storm of criticism which has stirred up public opinion to a greater extent than they ever imagined.

A man rushed into a newspaper office complaining he had been reported as dead, and demanded that it be retracted. The editor said that

nothing was taken back once it was published, but he would give him a fresh start and put him in the birth column next day.

COUNTER CHECK BOOKS

We have at last secured the agency for a counter check book company and can supply you with counter check books printed to your order for

Low In First Cost Economy in Operating

Two Important Factors in Ford Ownership

1929 Sedan
Coach \$896.00

\$1034.00
Coupe \$931.00

Ask for our plan
whereby you can
purchase a
Ford Car

Running expense is a big feature always. The car that will stand up to continuous driving day in and day out, goes lightest on fuel, and knows no repairs is the car you are looking for.

The reliability and low running costs of the Ford car are no longer matters of conjecture. Experienced garage men and mechanics, large industrial concerns operating fleets of Ford cars, and officials of Drive-It-Yourself companies, all of whom are

in a position to keep day by day cost figures, submit similar reports that leave no room for doubt.

You save money when you buy a Ford car, you save money every mile you drive, and your depreciation is lower than in any other car. These are motoring facts worth considering.

In addition to sound economy, the Ford car gives you beauty, speed, safety and driving comfort.

We shall be glad to give you a demonstration drive at your convenience.

WORLD HAPPENINGS
BRIEFLY TOLD

Lord Revelstoke, who died recently in Paris, where he was attending the meeting of the reparations conference, left half a million dollars to King Edward's Hospital fund for London.

The estimates tabled in the Newfoundland legislature provide for a total expenditure for 1929-30 of \$10,547,706 as against \$10,438,139 for 1928-29. The total funded debt of the colony is \$51,142,149.

The British strong "cyclamen" has left Iraq to protect British subjects in Abadan, Persia, where mobs had got beyond control of police. Persian troops have been called to restore order.

Profound secrecy surrounds the building programmes of the French Air Ministry. Everything around the Ministry building is in a turmoil and aviation factories are working day and night to carry out the programme.

A country-wide search for Miss Barbara Pitcher, missing McGill University student who disappeared in Montreal, March 21, was brought to an end with the finding of the young woman's body in Back River, near a convent at Sault au Recollet.

To provide an outlet for surplus stocks of potato in the Newmarket Department of Agriculture is encouraging the erection and operation of starch plants in the potato raising sections as a means of taking care of the small and otherwise unmarketable potatoes from the crop of succeeding years.

The Nationalist government state council announced that beheading decapitation as a method of execution in China would be prohibited. Decapitation had been discarded by previous regimes but it was still used by the police and military authorities for executing bandits and robbers. Its complete abolition has now been ordered.

Cutting Corns With Razor
Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death, may result from paring with an inferior razor. A quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. If afflicted with corns, callouses or sore foot-roots, use PUTNAM'S—immeasurably safe to the skin. The corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c. at all dealers.

Alberta Pool Elevators

The Alberta Wheat Pool made a definite start the other day in extending its country elevator system, when it was officially announced that 15 of these elevators had been contracted for and 12 others bought over from different interests.

"Why couldn't they get on together?"

"Well, you see, he's a Scot and she would persist in washing out his shaving brush every morning."

British piano manufacturers have captured both the American and New Zealand markets from their American rivals.

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude herbs. Use what your doctor would advise.

The best healer is Phillips' Milk of Magnesia. For 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

A tasteless spoonful in water neutralizes more acid than its volume will hold. The result is lasting relief, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go home—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Canadian Legion

Dominion Convention To Be Held In Regina In November Of This Year

The Dominion Convention of the Canadian Legion B.E.S.L. will be held in Regina on November 25th 1929.

To those ex-service men who are not members of the Legion, the present is an opportune time to become identified with the organization that has done much to promote the welfare of returned men, their widows and dependents.

The work of the Legion is not diminishing as the years go by, but rather is growing. The membership likewise is increasing and particularly so in Saskatchewan since the Provincial Convention, but in the province there are still a number of men who are eligible to join, and who have not as yet identified themselves with the organization, possibly due to lack of opportunity to do so.

With the increase of branches throughout the province, there is now local representation in practically every district and the provincial secretary, Canadian Legion, Regina, will be pleased to advise anyone, on request, of the nearest local branch.

Among returned men was accomplished when the Canadian Legion came into being some years ago. All that remains is to complete the membership and make the organization even more representative than it is today.

On its record of achievement, alone, the Legion deserves the support of all ex-service men, and it is hoped that the next few months will see every eligible man in Saskatchewan enrolled. The dues are nominal, but the presence of every returned man in the ranks of the Legion will be of the utmost value in furthering the aims and objects of the organization, and in promoting that comradeship which is one of its biggest assets.

Useful in Camp—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electro Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the results of the prevention of pain in the muscles, and should a sore, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

The winner will be one of 49 to be picked, one from each state and one from the District of Columbia. Mr. Edison will pay the expenses of all 49 boys from their homes to his laboratory at Orange, N.J., about August 1. There he will put to them his questionnaire.

Search for the Brightest Boy

Thos. Edison To Grant Scholarship To Candidate Passing Test

Thomas A. Edison, grown gray in achievement and fame, has started out to find a boy to whom he may pass on some day the torch of his genius. He started a search for the brightest boy in the United States. When he finds him, he is going to make him go to college first of all.

A scholarship, taking care of all tuition fees for four years at whatever technical school the winner wishes to enter, will be awarded the high school or preparatory school boy who most intelligently answers a questionnaire to be made up by Mr. Edison.

The winner will be one of 49 to be picked, one from each state and one from the District of Columbia.

Mr. Edison will pay the expenses of all 49 boys from their homes to his laboratory at Orange, N.J., about August 1. There he will put to them his questionnaire.

Okanagan Fruit Prospects

Despite hard winter weather there is very little injury to the fruit trees of the Okanagan Valley, and indications are for a fair setting of all fruit with fine prospects for the apple crop at the southern end of the valley.

Heck—A producer says that the movie of the future will be a combination of silence and sound.

Peck—I see. Like a man carrying on an argument with his wife.

Nation-Wide Fame.—There is scarcely a corner of this great Dominion in which the Dr. Thomas' Electro Oil has not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other afflictions from internal trouble. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

People expect too much of a boy who is at the growing age. When he has done his eating and his growing he put in a pretty full day.

We would say that a stable government is one in which the people remain hitched.

Made in Canada - No Alum!

RECIPES FOR THIS WEEK
(By Betty Barclay)

FRUIT OMELET

1 egg.
Few gratings orange rind.
1 teaspoon orange juice.
Few grains salt.
1 orange.
2 tablespoons butter.
2 teaspoons powdered sugar.
Beat the egg slightly, adding the orange rind and juice and salt. Peel the orange, removing all white membrane, and cut into very thin slices. Sprinkle with one teaspoon of the powdered sugar. Melt the butter in a hot individual omelet pan or frying pan. Pour in the egg mixture and cook over a low heat, shaking the pan and prickling the mixture with a fork until all the mixture is cooked. Roll or fold and turn out on to serving dish. Sprinkle with remaining sugar and surround with slices of orange.

A BALANCED MEAT DISH

Shred one pound of lamb, beef or pork and brown in its own fat in a frying pan. Add one cup of chopped celery and celery tops, one tablespoon minced onion and one tablespoon salt. Cover and cook about ten minutes. Add two tablespoons flour and two tablespoons butter mixed together and two cups canned strained tomato juice. Stir until the mixture is thick and bubbling, then serve.

CANADIAN AIR MAIL PLANE ESTABLISHES WORLD'S RECORD

The entire world recognizes that Canada, in proportion to her population, is making greater practical use of aircraft than any other country and the "work" records of Canadian airplanes are regarded as even more important contributions to the advancement of aviation than the endurance and other stunt achievements of other countries.

Canada's latest and most impressive practical record in air is in speedy delivery of air mail and Capt. D. S. Bondurant, pilot for Canadian Airways (subsidiary of International Airways of Canada, Limited), as a result of a record flight between Toronto and Montreal, now holds the world's air mail speed record.

Capt. Bondurant, flying a Fairchild "71," powered by a Pratt & Whitney Wasp engine, on March

21st, covered the 340 miles from Toronto to Montreal in just one hour and forty-four minutes, and this has now been established as the world's fastest air mail flight.

Remarkable as this time is, Capt. Bondurant would have bettered it, but for fog encountered a little over 100 miles from Montreal. Up to this point he has flown 215 miles in just 60 minutes, maintaining a speed of over 3½ miles a minute.

Throughout the record-breaking flight Capt. Bondurant reported perfect performance from his plane which was fueled with Imperial Aeroplane Spirits and lubricated with Imperial Marvelube Motor Oil products which have become the almost universal preference of Canadian aircraft operators who choose them for 90 out of every 100 miles flown in Canada.

The International Boundary

The work of keeping the International Boundary between Canada and the United States in a state of effective demarcation was made one of the functions of the International Boundary Commission by a treaty signed at Washington on February 24, 1923.

An English physician claims that crying is good for one's complexion—provided, of course that one's complexion is one's complexion.

SUNDAY SCHOOL LESSON

MAY 19

JEREMIAH CALLS TO OBEDIENCE

Golden Text: "Hearken unto My voice, and I will be your God, and ye shall be My people."—Jeremiah 7. 23.

Lesson: Jeremiah 7.1-26.
Devotional Reading: Psalm 98. 7-13.

Explanations and Comments

Outward Ritual Is Not Religion, verses 1-4—Jeremiah felt impelled to stand at the gate of the temple and warn the people. To all who entered in at these gates to worship in the temple, Jeremiah said: "Thus saith Jehovah, the God of Israel, amend your ways and your doings (a favorite expression with Jeremiah) and I will cause you to dwell in this place, you shall not be carried off into exile. Trust not in the living words of false prophets who declare unto you a people to be delivered from their sins." The repetition of the words "the temple of Jehovah" suggests the energy of iteration that belongs only to Eastern fanatics. David, in his prayer, got the repeated cries of the fanatics in the theatre at Ephesus. "Great is Diana of the Ephesians" (Acts 19.)

"It is not thus that the children of God are to be numbered by the number of animal piety? Is it not thus that evil-living men will risk the consequences of sin, because they are prepared to make small gifts and religious drink-sellers, opium-smugglers, the slave-masters, administrators to conscience, saying: 'The temple of the Lord! The temple of the Lord!'

There Must Be Obedience To The Covenant Of Old, verses 5-7.—The continued security of the people in the land of Canaan the fathers would depend upon their returning and practicing the social virtues. Jeremiah declared—the security of justice between a man and his neighbor, the protection of the oppressed, of the stranger, the fatherless and the widow, and the avoidance of the shedding of innocent blood—and also upon the avoidance of the worship of false gods. The people of Israel, far from away, the alien resident temporarily in Judah. He and the fatherless with the widow had no voice in the administration of affairs and could be easily oppressed.

"As the potter has power over the clay to make and to change as he pleases, so is the nation in the hands of God. Go to do what seems best to you. Hear me, for to us it is given to make the national life and purpose without God and His Son Jesus Christ, into whose hands the nations of the world have been given. Great is the power of God, and the love of God, and the voice first of all that our cause is right with God and that we have the spirit of submission and obedience to him. Then the world will come out a better place, for the words of God will be moulding the clay."—The Youth's Companion.

Saskatchewan Hemp

Feasibility Of Hemp Growing Has Been Demonstrated

With the object of promoting hemp growing in the district, the Rothesay Board of Trade has instructed its secretary to purchase and distribute quantities of hemp seed. The feasibility of hemp growing as an industry has been demonstrated by seven farmers in the area who have all had plots of four acres under cultivation. Although the seed was not sown until June last year, a month late, the hemp grew 13 feet in height. The Provincial Government is assisting in building up the industry. The nearest factory is at Portage La Prairie, Manitoba.

Short of Breath

Smothering Feelings

Choking Sensation

Mr. H. Day, Dartmouth, N.S., writes: "For over a year I was troubled with smothering spells and shortness of breath, and it was impossible for me to walk, even a short distance, because of a choking sensation which followed.

H. C. McBURNEY

Druggist and Stationer

"McLaughlin-Buick get-away, power, speed and easy riding surpass any car I have ever driven. I do not think there ever was a more beautiful car made."

(Name upon request)

MEN and women in every community have discovered that this dynamic car provides an advanced standard of motoring—that it out-runs, out-climbs, out-performs any automobile they have ever driven—that it is exactly what McLaughlin-Buick owners say it is; the finest performing automobile ever built! More than twice as many people have purchased McLaughlin-Buicks as any other automobile at above its price. And additional thousands are getting behind the wheel, getting the facts and entering orders for McLaughlin-Buicks with each passing week.

Matchless style, matchless comfort and, above all, matchless performance, are the reasons. Come, prove these things to your own satisfaction. Take the wheel of this car—test it against any other—and you, too, will join in the nationwide endorsement of McLaughlin-Buick.

Personal and Local

See "The Flying Fleet" at the Palace this week-end.

Miss Gladys Lee, of Tull & Adams' offices, Lethbridge, spent the week-end at her home here.

Robert Hill arrived last Friday from Cardiff, Wales, to work in the mines.

Look up the program at the Palace for the coming week, for high class features which you will enjoy.

Mr. G. A. Ritchie has been seriously ill at the home of his daughter, Mrs. Hall, Sixth street, since last week.

Fred Antrobus, Jr., arrived home on Tuesday from McMaster College, Toronto, and will spend the summer months with his parents, Mr. and Mrs. Wm. Antrobus.

It is reported that a well known local character made a hurried departure for Vancouver following a warrant being issued for contravention of the Liquor Act.

Mrs. Robt. Lloyd and 8-year old son, arrived from Manchester, England, to take up residence with her husband, who has lived in Coleman since 1922.

A boy riding a bicycle was knocked down on Sunday evening by an automobile in the vicinity of East Coleman. The police stated that the driver would be summoned to appear in court.

Mrs. H. Wilton Clark, whom it will be remembered lived on Sixth street till the latter part of 1927, is at present a patient in Central Sanitorium, Calgary. Mr. Clark is at present at Jerome, Ill., but is expected home on a visit shortly.

Mr. Janostak of the Coleman Groceria donated \$40 to the fire brigade as a recognition of their services in extinguishing the fire at his store two months ago. A radio has been purchased with the money by the men who live at the fire hall.

Sidney White of Coleman teaching staff received his degree as Bachelor of Arts at Alberta University convocation yesterday. His mother, Mrs. Montague Wilson, and Mrs. Odell and daughter attended the convocation exercises.

Summit Lake, west of Crows Nest Lake, was the goal of a hiking party last Saturday, including Miss Yuill and her class of West Coleman school, Miss Goozee, Miss Adam, Miss M. Reid, Margaret Allan, Belle Flynn, Gladys Higginbotham and Megan Jones.

Frances L. Linnville of Blairmore won the silver medal in the junior piano class at the Alberta festival in Edmonton. Beatrice Trono was awarded third place. Both are pupils of Miss Madeline Chardon of Blairmore. Verdun Leigh of Cowley won the silver medal in junior violin class. This girl is a pupil of Mr. Moser.

Lethbridge Badminton Club is holding a Badminton Club on Sat. May 18. An invitation has been extended to the members of Coleman club to participate. The events will consist of singles, doubles and mixed doubles, and entries should be made as soon as possible to Mr. Geo Davies c/o Lethbridge Iron Works, by Friday, May 17.

Applications

From Ex-Service Men
will be received for the
position of
Steward of the Coleman
Branch of the Canadian
Legion, B.E.S.L.

Applications must be in to the Secretary not later than May 23rd

FOR SALE—6-room house, with 2nd bath, room and good cellar; also 2nd and 3-room house, Main street, West Coleman. Also upright piano at bargain price. Sam Hadfield, West Coleman.

The two-year old son of Mr. and Mrs. Wm. Antel was operated on last Friday for internal trouble that developed very quickly the previous day. He was quite well and playing in the morning, and after he awoke from a nap in the afternoon he was suffering severe pain. Examination by Dr. Borden immediately decided him to perform an operation and the little fellow is now progressing satisfactorily.

A party of Coleman people enjoyed a picnic at Lundbreck Falls on Friday last, and one gentleman of the party experienced a cold bath which might have terminated in a shower beneath the falls, but for his strong powers as a swimmer. He was pushing logs out into the river above the falls, when he pushed a little too far, with the result that he lost his balance and found himself waist-high in the water.

The ladies of Crescent Lodge, L.O.B.A. celebrated their fifth anniversary last evening with 35 members of Victoria Lodge, Lethbridge, and 20 from Pincher Creek lodge.

A banquet was held, and a handsomely decorated cake made by Mrs. Glendenning excited keen admiration, as it was indeed a fine example of decorative art.

Initiation degree were conferred Lethbridge degree team putting on the work. The evening closed with a very enjoyable social hour.

Believe It Or Not! SILK-AID

Triples the Wear of Silk Hosiery, Lingerie, Etc.

Keeps them looking like new! Insurance on your hosiery at a cost of 1c a pair.

Treat your silk hosiery with Silk-Aid. Treat new hosiery at once before wearing, then treat once in six or seven washings. In six months you will be pleasantly surprised at how little you have spent for hosiery combined with the use of Silk-Aid.

Silk-Aid—if properly used—a package is sufficient for 100 pairs of hose and the saving on one pair of hose will pay for a year's supply of Silk-Aid.

Truly, you are buying hosiery insurance at 1c a pair.
